Subject: John Keenan

Hi David –

After we talked yesterday it occurred to me that John might also be an asset at the meeting tomorrow. I know we want to limit numbers overall but John adds another solid engineer to the table. I think he might be able to help the overall dialogue and for EPA certainly two engineers is better than one since I think this is just the beginning of this dialogue country-wide.

Do you have any concerns about this? Our plan is to leave at 8am and we should be at your office around 12 after grabbing a quick bite.
